PROFESSIONAL SUMMARY

MCA student with hands-on experience in developing responsive web applications using **React.js, JavaScript, HTML, CSS and MERN stack**. Experienced in building reusable React components, integrating **REST APIs**, DOM manipulation and implementing JWT authentication. Familiar with **NPM, Git/GitHub, Vite and responsive UI development**. Seeking a Software Development role to contribute to frontend development and strengthen skills in modern web technologies.

EXPERIENCE

Web Developer Intern (MERN Stack) **June 2026- July 2026**
THE KITES, Jalandhar
Assisted in the development and maintenance of MERN Stack web applications by building React.js components, integrating REST APIs, fixing bugs, and collaborating with the development team to deliver responsive and user-friendly websites.

PROJECTS

- **AI Creator Hub (MERN Stack) :** Developed an AI-powered web application using the MERN Stack that enables users to generate AI-based content through an intuitive interface. Implemented secure JWT authentication, integrated AI APIs, and built responsive frontend components with React.js while developing REST APIs using Node.js and Express.js. Link - https://ai-creator-hub-client.vercel.app
- **Fitness hub Website (MERN Stack):** Developed a fitness tracking platform with BMI calculator and personalized workout/diet recommendations; implemented secure JWT authentication for 1+ user roles, improving user data privacy.
- **Food-Delivery Web App (Node.js, MongoDB, React):** Deployed a full-stack food ordering platform with separate user, admin, and backend services; implemented JWT-based authentication and Stripe payment integration, reducing manual order tracking through a real-time admin dashboard. Deployed using Vercel (frontend/admin) and Render (backend) with Cloudinary for image hosting.
